PRODUCT SHEET

PRODUCT NAME BASIC THIRD

Pretty Plastic
building from waste

TECHNICAL DATA

HEIGHT	569 mm
WIDTH	329 mm
THICKNESS	30 mm
NUMBER OF TILES PER M²	6.7
WEIGHT PER TILE	2.5 kg
WEIGHT PER M²	16.75 kg
MATERIAL	recycled Polyvinyl chloride (PVC)
FLAMMABILITY (EN 13501-1:2018)	B-s3,d0
PRODUCTION TOLERANCES	+/-2%

INSTALLATION

Pretty Plastic tiles must be fixed to a wooden substructure made of timber battens. The minimum quality should be C16, with a minimum dimension of 24 × 48 mm. Each tile must be mechanically fixed to the batten structure using fasteners suitable for exterior façade use (for example SPAX Wood construction screw, stainless steel A2, Ø 6 mm) - see our Installation Manual for details.

PROCESSING

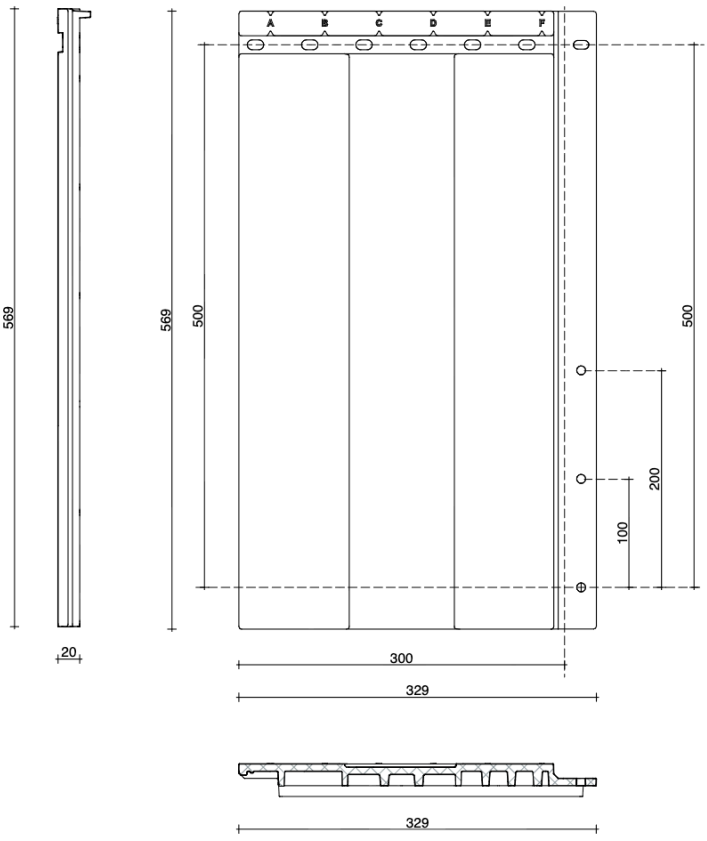

Pretty Plastic can be cut or drilled without splintering.

COLOUR

Pretty Plastic is available in four colours – ochre, terracotta, green and grey – each offered in three shades. The colours shown serve as representative examples and are intended to provide an initial impression only. Due to the inherent characteristics of recycled materials, the actual product may display slight variations in colour and finish.

MAINTENANCE

Pretty Plastic is maintenance-free and can be cleaned using standard household cleaning products.

RELIEF

We currently produce our Basic Third tile in a standard format with a vertical relief, but the design of the tile allows for endless possibilities in reliefs and textures. The design studies shown below provide an initial impression of these opportunities. Please contact Pretty Plastic for more information on bespoke editions.
