Pretty Plastic
building from waste

TECHNICAL DATA

HEIGHT	400 mm
WIDTH	304 mm
THICKNESS	29 mm
NUMBER OF TILES PER M²	22.2
WEIGHT PER TILE	1.1 kg
WEIGHT PER M²	24.4 kg
MATERIAL	recycled Polyvinyl chloride (PVC)
FLAMMABILITY	
WALL: EN 13501-1:2018	B-s3,d0
ROOF: EN 13501-5	BROOF(t4)
PRODUCTION TOLERANCES	+/-2%

INSTALLATION

Pretty Plastic tiles must be fixed to a wooden substructure made of timber battens. The minimum quality should be C16, with a minimum dimension of 24 × 48 mm. Each tile must be mechanically fixed to the substructure using fasteners suitable for exterior façade use (for example SPAX façade screw, stainless steel A2) - see our Installation Manual for details. Maintain a minimum 2 mm gap between tiles.

PROCESSING

Pretty Plastic can be cut or drilled without splintering.

COLOUR

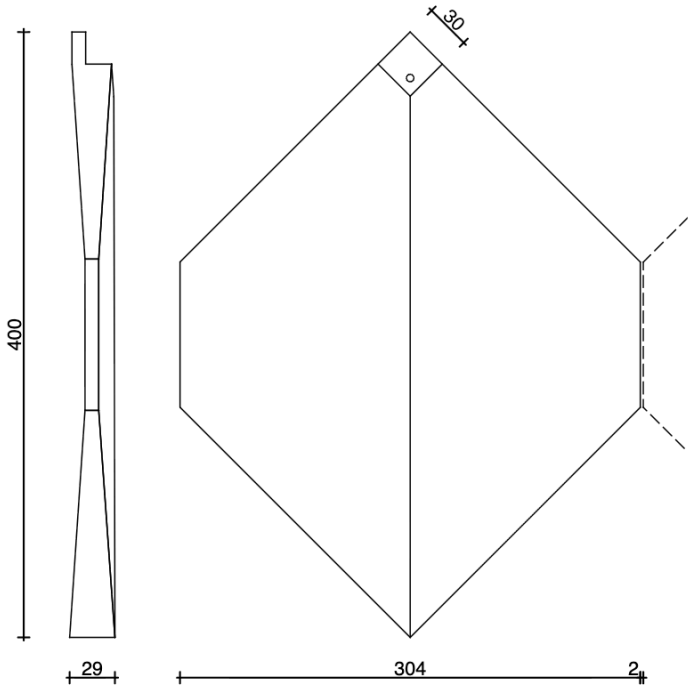

Pretty Plastic is available in four colours – ochre, terracotta, green and grey – each offered in three shades. The colours shown serve as representative examples and are intended to provide an initial impression only. Due to the inherent characteristics of recycled materials, the actual product may display slight variations in colour and finish.

MAINTENANCE

Pretty Plastic is maintenance-free and can be cleaned using standard household cleaning products.

RETURN & UPCYCLING

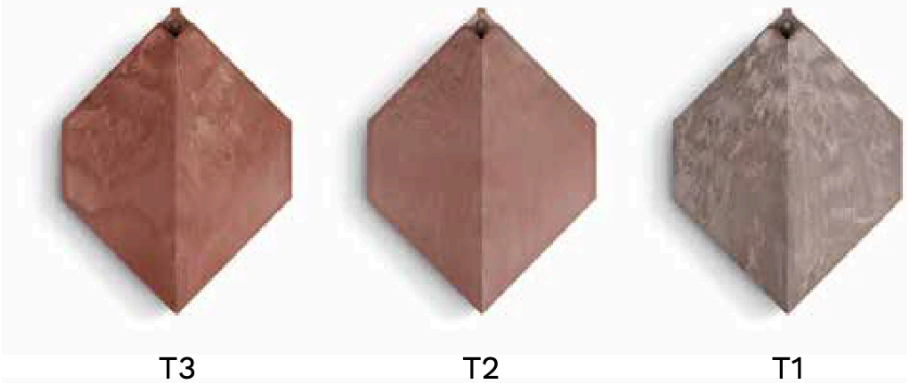

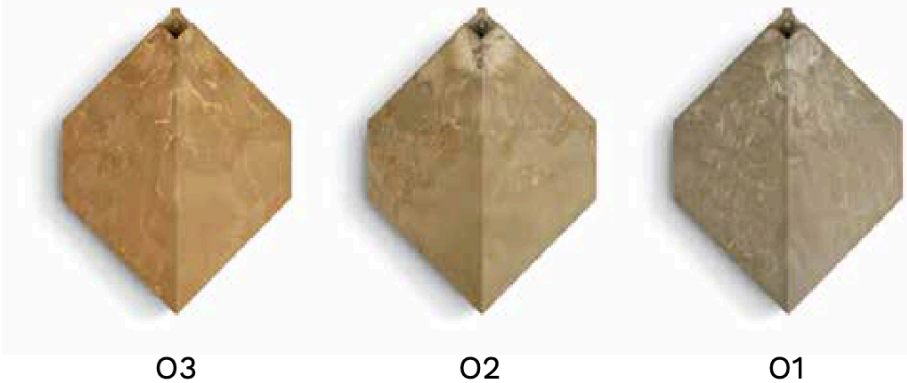

Tiles are returnable for reuse or recycling. Info: prettyplastic.nl
