

Pretty Plastic Panels (First One)

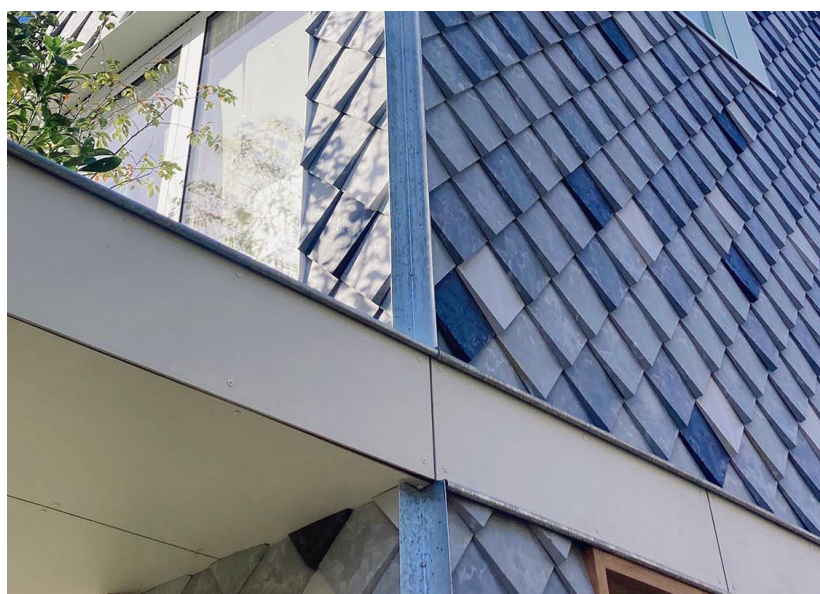

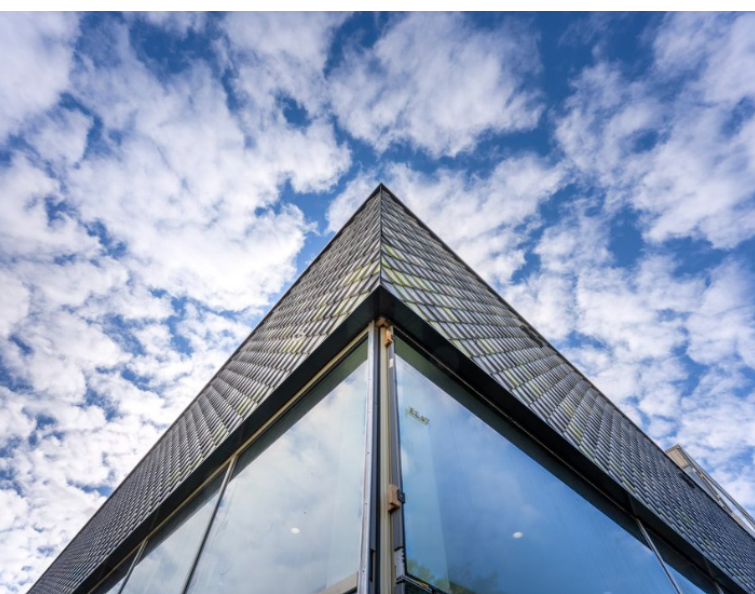

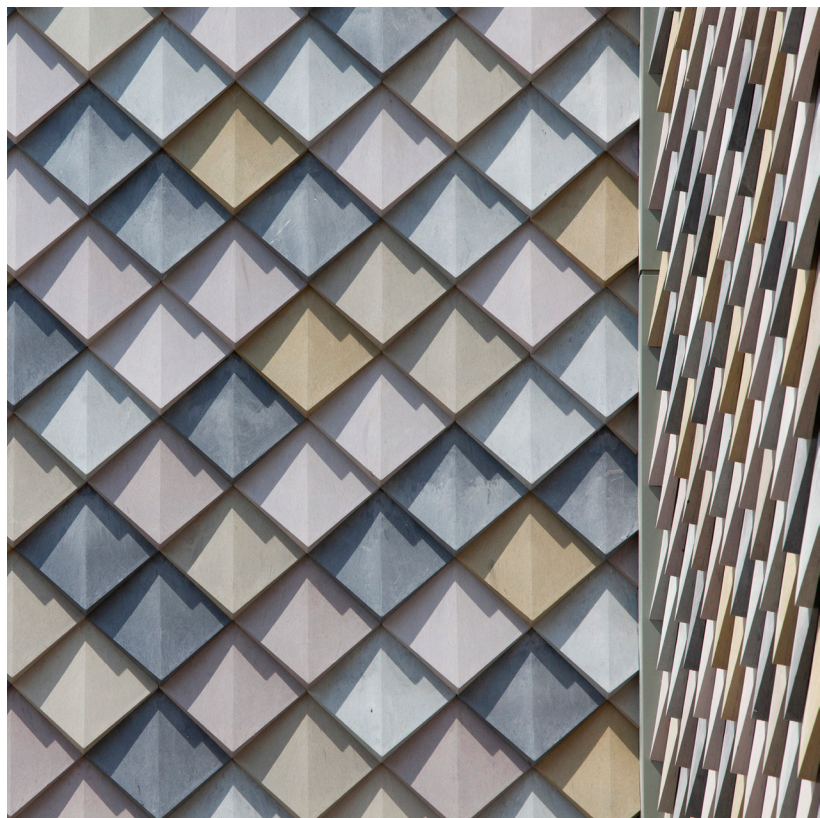

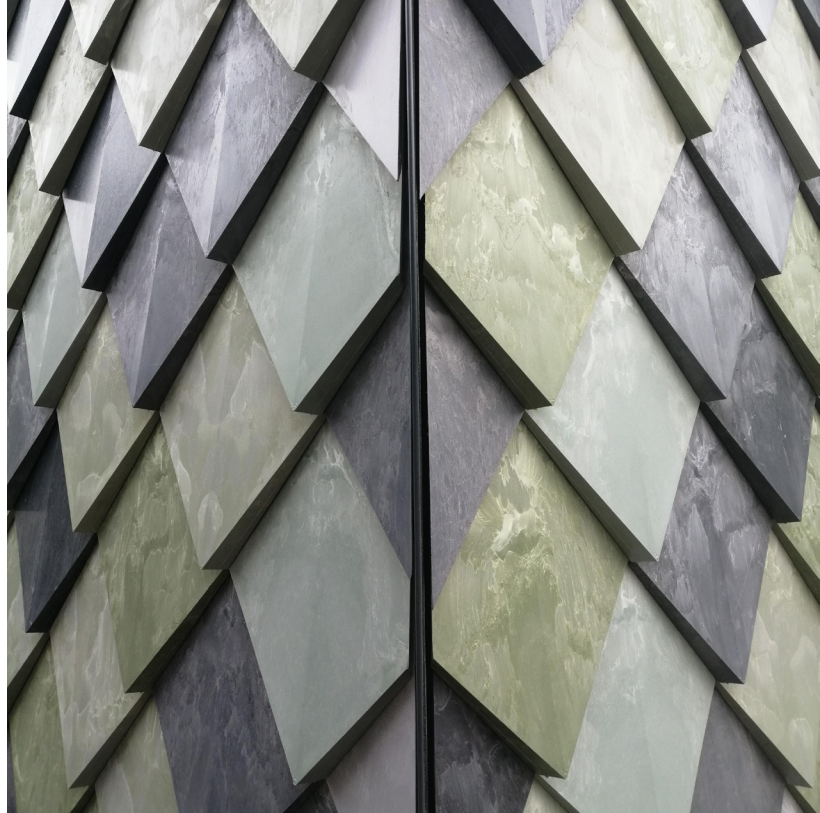

Corner Connections and Window Frame Solutions

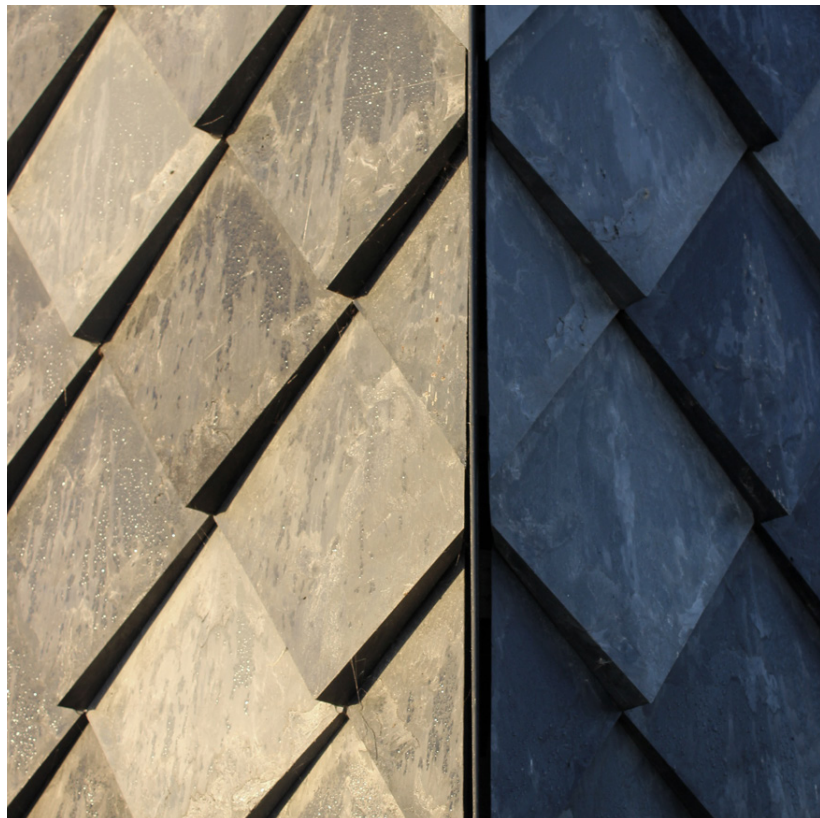

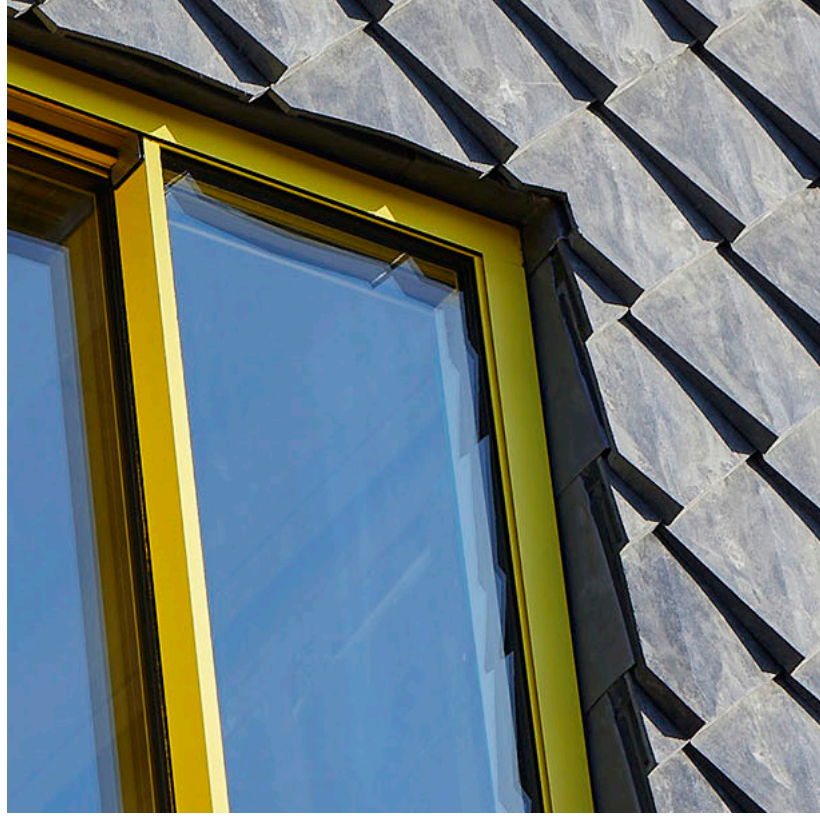

PRETTY PLASTIC: **CORNER CONNECTIONS** **AND WINDOW FRAME** **SOLUTIONS**

When applying Pretty Plastic's "First One" tiles there are many solutions for corner ends and window frame connections. Since our Pretty Plastic tiles are already installed in more than 70 projects in 7 countries, a wide variety of solutions are already successfully integrated as proven design concepts. As a source of inspiration, we have selected a few examples to assist architects, façade builders and general contractors in finding the best possible solution to meet your design requirements for a beautiful finishing of the façade. Please refer to our installation manual for detailed drawings for various possible solutions. For more information about our tiles and corner solutions please contact us via info@prettyplastic.nl
